Priscila Vázquez Pérez

HC 08 BOX 24540, PR-443 KM1.7, Aguadilla, PR, 00603-9646;
E-mail: pricilav@live.com; Tel.: (787)239-5126.

OBJECTIVE: Extremely motivated person looking for entry-level positions, which are internships, coops, entry-level engineering and computer, and research.

EDUCATION

B.S. in Electrical Engineering (162 crds.), University of Puerto Rico, Mayagüez, PR.
GPA: 2.72. Expected Graduation.
B.S. in Computer Science (54 crds.), Interamericana University of PR, Aguadilla, PR.
GPA: 3.67. Expected Graduation.
B.A., Mathematics, 5-12 (18 crds.), Western Governors University, Salt Lake City, US.
High School Diploma in Colegio AD, #14 Calle Giorgetti, Rio Piedras, PR. GPA: 3.94.

ACHIEVEMENTS: Golden Key National Honour Society, University of Puerto Rico, Mayagüez, PR (October 31, 2013).

SKILLS

- Programming languages: C, Python, HTML5, CSS3, and JAVA.
- Special Software: Agilent Advanced Design System Software (ADS) (antenna designs), Logic Works (logic circuits design), and Minitab.
- Office Software: MS Word, MS Power Point, MS Excel, MS OneNote, and buying records software.
- Languages: Fluent in English and Spanish, and some French (2 years).

PROJECT EXPERIENCE

- Designed an algorithm and code for student grades in C with two other people for a class. The one I did on my own had pointers, but I did not finish it. The one for the class was written by one of the other two people.
- In JAVA, did file writing for the final project using initialized objects.
- In HTML5 and CSS3, did two websites, a baking site with my brother and a clothes site using instances for the classes, and other things.
- Used ADS to simulate the design of a 'Microstrip Patch Antenna. The other person in the project designed the antenna using FR4 and copper tape. We tested it with the Agilent Network Analyzer by verifying its scattering parameters in 'Smith Chart' and 'dB format'.
- In Minitab, did all the reports of the probability and statistics class.

WORK EXPERIENCE

Administrate Assistance; 2–Nov.–2009 to 11–Dec.–2009 (70 hours). S.U. Adams School; Aguadilla, PR. Type: Community Service.

- Tended calls and received visitors in the office.
- Made business letters, vaccination referrals, and wrote tabulated information to MS Excel of the PPAA tests the students had taken; and printed it for a meeting the principal was going.
- Took a certified training to use the Health Department's system to put and manage vaccinations and PVAC3s.

"Bloquera"; Aguada, PR; June 2003. Used to sell a construction material.

- Learned to use a business software like QuickBooks to edit buying records.
- Used to sweep and mop around.
- Tended to calls and the called id.
